ON THE COVER

PERHAPS THE MOST common sight along the Denver & Rio Grande Western narrow gauge railroad was that of a 2-8-0 stopping at a water tank. Sometimes we may forget steam locomotives required much more water than fuel. Russ Reinberg photographed Precision Scale Company's new D&RGW C-21 Consolidation at the new 1:48 scale Crystal River Products 50,000 Rio Grande tank. A photo feature on D&RGW Consolidations begins on page 38.
