## ON THE COVER

ON30 HAS BECOME very popular and, with it, locomotive kitbashing and detailing has become more lively. Bachmann's new Davenport gas mechanical switcher is as likely a candidate for modification as we have seen. So, beginning on page 28, we feature not only the stock model in a layout setting but also several variations along with articles about building other "critters". Russ Reinberg photographed the 1:48 scale Bachmann Davenport on our cover.
