We Ship Worldwide

EVERY CUSTOMER HAS LIKED Blue Scarlett AND MOST LOVE IT.

We often receive notes saying, "I can't stop playing it" or
"I want to order two more for my friends" or
"It's great music to build models by; I even play it at work."

Russ Reinberg's clarinet infuses a melodic all-star jazz quartet with emotion and energy.
The album is perfect either for close listening or romantic background music.

The price of \$15.00 includes postage in the U.S. and, where applicable, California state sales tax.
Listen to samples at www.westlakerecords.com.

FINESCALE RAILROADER

CHALLENGES YOU:

BUILD A LINESIDE INDUSTRY

SEND US A PHOTOGRAPH OR TWO, SEE YOUR MODEL
IN THE JUNE 2006 ISSUE.

- We must receive your photos by **April 1, 2006**.
- All entries will appear in the magazine.
- The builder of what we consider the most outstanding model will receive a two year subscription to **FINESCALE RAILROADER** and any additional prize or prizes our advertisers may contribute.
- The first runner-up will receive a one year subscription and any additional prize or prizes our advertisers may contribute.

Models may be of any scale (and gauge) and of any prototype or completely freelance. Commercial components are allowable but you will receive "extra credit" for scratchbuilding.

The 2-8-8-2 USRA Type Mallet is the next steam locomotive being produced by Aristo-Craft. With its massive 2-8-8-2 wheel arrangement the Aristo-Craft Mallet is a wonderfully huge locomotive. The Aristo-Craft Mallet will look great on a big layout with generous curves yet it will be at home on railroads with an 8 foot diameter curve. Built on a pair of our 4 Prime Mover gearbox equipped power trucks first used on the highly successful Aristo-Craft 2-8-2 Mikado, the Aristo-Craft Mallet is sure to raise the bar and create a higher standard for all G-Scale steam locomotives.
